RE: IN THE MATTER OF THE APPLICATION OF ARIZONA PUBLIC SERVICE COMPANY  
FOR APPROVAL OF UPDATED GREEN POWER RATE SCHEDULES GPS-1 AND GPS-2  
AND A NEW GREEN POWER RATE SCHEDULE GPS-3  
DECISION NO. 71276, DOCKET NO. E-01345A-08-0614

APS filed a redline and non-redline GPS-3 rate schedule consistent with Decision 71276 on October 1, 2009. Staff has commented on the October 1<sup>st</sup> filing and requested additional verbiage be added to the rate schedule. In order to comply with this request, APS has added the following verbiage to the GPS-3 schedule:

"The green kWh purchased under Schedule GPS-3 may be applied to one or more events at the Customer's discretion and there is no time limit for applying such kWh to future events."

Enclosed is Arizona Public Service Company's ("APS") non-redlined version of the GPS-3 rate schedule.

If you have any questions or concerns, please call Mr. Charles Miessner at 602-250-3081.

Sincerely,

Leland R. Snook

**ADJUSTMENT SCHEDULE GPS-3  
GREEN POWER BLOCK SCHEDULE  
FOR SPECIAL EVENTS**

---

**APPLICATION**

Adjustment Schedule GPS-3 ("GPS-3") shall be applied to Standard Offer customers who wish to purchase electricity generated from renewable sources for their Green Event. A Green Event is temporary in nature and includes, but is not limited to, concerts, sporting events, festivals, fairs, which can be held over single or contiguous multiple days at single or multiple sites. The green kWh purchased under Schedule GPS-3 may be applied to one or more events at the Customer's discretion and there is no time limit for applying such kWh to future events.

All provisions of the customer's current applicable rate schedule will apply in addition to this surcharge. However, the charges in Adjustment Schedule EIS and Adjustment Schedule RES, or successor schedules as approved by the Arizona Corporation Commission, will not apply to the Green Power kWh served in accordance with GPS-3, up to 100% of the customer's total monthly kWh supplied by the Company. For purposes of this adjustment, the total Green Power kWh will apply in the month they are purchased.

Electricity from renewable sources shall be referred to herein as "Green Power." Green Power may be:

1. Company-owned generation using eligible renewable resources as defined by the Renewable Energy Standard rules (A.A.C. R14-2-1802 and successors).
2. Generation not owned by the Company, but owned by another party for which the Company has contracted using eligible renewable resources as defined by the Renewable Energy Standard rules (A.A.C. R14-2-1802 and successors).

**TYPE OF SERVICE**

The Company will offer electricity generated from renewable resources delivered through the Company's electric distribution system.

The Company shall limit the participation in GPS-3 based on the Green Power available to provide service under this rate schedule.

The Company, at its discretion, may limit the number of kWh blocks sold to any one customer to no more than five percent of total Green Power procured for service under schedules GPS-1, GPS-2 and GPS-3.

Each block shall equal 100 kWh subscribed for by the customer.

Charges under this schedule will be adjusted annually with Commission approval.

Because rate schedule GPS-3 is for a temporary event, Section 3.3 of APS' Schedule 1 shall not apply.

**SERVICE CHARGES**

Service under this rate schedule shall be billed the Green Power Block rate of \$0.40 for each 100 kWh block of Green Power for the duration of the special event. This charge is based on the Green Power Premium rate of \$0.004 per kWh of Green Power times 100 kWh. Minimum purchase shall be \$500.00 per transaction.
